Plantronics Voyager Pro UC / MDA200™ Bundle

Unite your enterprise voice and step smartly into Unified Communications with the Voyager Pro UC and MDA200™ Headset Communications Hub Bundle. Uniquely designed to solve the communication challenges of businesses migrating to Unified Communications, the MDA200 lets you manage PC voice and multi-media, while maintaining connectivity to your desk phone. Work the desk phone. Launch the softphone. Even take calls on the mobile, when using the Plantronics Voyager Pro UC. The MDA200 is plug-and-play and compatible with all major UC applications so you can rapidly deploy it for flex-space, hoteling, teleworking, call centres, UC transitioning, and more. It's the simple, seamless solution for an enterprise that just can't sit still. The bundle includes the HL10 lifter and the power supply needed to support the extra current the MDA200 needs to drive the lifter motor.
